A black and white line drawing of a rectangular sign with a thick border. Inside the sign, there are two identical female figures standing side-by-side. Each figure has a circular head with two dots for eyes, a small neck, and a simple dress with a V-neckline and short sleeves. To the left of the sign, there is a vertical post with a circular knob at the top, suggesting the sign is attached to a wall or post.

A diagram showing the assembly of a metal bracket. The bracket is L-shaped and has a pre-drilled hole. A bolt is being inserted through the hole, and a nut is being tightened onto the other end. The bracket is shown in a perspective view, and the bolt and nut are shown in a side view.
